- GitHub
- Jenkins

WORK EXPERIENCE

Sep 2015 - Dec 2018

ALQUIMIA - Founder & Product Owner

Founder of a small software company named ALQUIMIA offering mobile solutions for Android and iOS devices. ALQUIMIA has a flagship product named VADEMECUM BOLIVIA that currently is on the Apple Store and Play Store with more than 15000 users.

Another outstanding product developed in Alquimia is PATRICII, which is a point of sale app developed for the iPad with currently 200 users.

Jan 2015 - Sep 2015

JALASOFT - Product Owner

Creative product owner of a Project Management Tool named JAT, that replaces third party solutions representing savings to the company in the short and long term.

Jun 2014 - Sep 2015

JALASOFT - Sr Software Developer

Became the Team Leader of developers and quality engineers for a Multi-company ERP for Jalasoft and associates. Under my supervision the team grew from 7 to 23 members with 5 different projects.

May 2013 - Jun 2014

JALASOFT - Junior Software Developer

Software Developer of two web applications. An online Spreadsheet with multiple function-oriented for Bankers (Banco Bisa - which is one of the largest banks in Bolivia) and an ERP for Jalasoft.

Ago 2012 - May 2013

JALA FOUNDATION - Junior Software Developer

Software Developer of an Invoice Management Tool for Bolivia named Silas (<http://www.silas.com.bo>) with more promising features that eclipsed the application provided by the government.

Apr 2010 - Ene 2011

JALA FOUNDATION - QA engineer internship

Member of a Quality Assurance and Quality Engineer program where I've participated in real software development life cycle focusing on the testing and quality area.
